**Subject:** RE: next steps outline (for discussion)

It looks like Kelly is busy during both times we discussed. I sent an invite for 2:00 for the rest of us to touch base.  
thanks

Whenever Kelly and Matt are free works for me if you want to schedule a time.

Hi Amy,

Thanks for the feedback. I am available at 2:00 or after 5:00, whichever is easiest for you. For 2a, there is an IRIS response on every topic 1 – 8. Some of the details in the comments (on IRIS vs. MON) may differ, but at a high level they are the same comments. My approach would be

**Ex. 5 Deliberative Process (DP)**

**Ex. 5 Deliberative Process (DP)**

Thanks,  
Kate

Topics from table:

<b>D-R Model Selection (visual &amp; statistical fit)</b>
<b>Breast Cancer Data (weight of evidence)</b>
<b>Endogenous and Ambient Levels</b>
<b>Cohort Selection (NIOSH vs UCC)</b>
<b>Healthy Worker Effect</b>
<b>Mortality and Disease Incidence Predictions</b>
<b>Consistency with Mechanistic Data</b>
<b>Pre-1978 Exposure Estimates</b>
<b>TCEQ Draft Assessment</b>
<b>ACC Request for Correction</b>

ADAFs and Susceptible Populations

URE and Existing Regulatory Limits

Peer Review of EtO IRIS Assessment

Weight of Evidence, Carcinogenicity

Hi Kate,

Thank you for this outline. I find it very useful. I have meetings from 2:30-5:00pm but could talk for a few minutes before or after.

Here are some brief thoughts on the highlighted topics:

## Ex. 5 Deliberative Process (DP)

I hope that helps.

Amy

**Subject:** next steps outline (for discussion)

Hi All,

I outlined what I think are the next steps for addressing priorities (specific to IRIS URE) before the MON goes to FAR (we have about 5 workdays). I think we are close on the preamble text, but after yesterday's discussion, I still have some questions (highlighted). Do you have time to meet again today to discuss this?

Thanks,

Kate
